NEXT Black Sea Basin

AlgaeRevive Project

We are excited to announce the launch of the AlgaeRevive project, co-funded by the European Union under the Interreg NEXT Black Sea Basin Programme.

Project name: “Harnessing Algae Power for Pollution Reduction and Blue Growth “

Project code and acronym: BSB00091 – AlgaeRevive

AlgaeRevive aims to create a sustainable ecosystem for algae research and innovation in the Black Sea region. The project focuses on using algae to reduce marine pollution and exploring their industrial applications, including food, energy, and bioplastics.

Leading Partner: Via Pontica Foundation, Bulgaria

Project Partners:

Prof. Dr. Asen Zlatarov University (UNIAZ), Bulgaria
Tsotne Mirtskulava Water Management Institute (WMIGTU), Georgia
Odesa State Agrarian University (OSAU), Ukraine
Hellenic Agricultural Organization DIMITRA (ELGO), Greece
Ovidius University (OUC), Romania

Programme priority: Blue and Smart Region

Duration: 30 months

09/2024 – 03/2027

Total budget: 1.470.899,04 Euros

EU funding: 1.323.809,13 Euros
